Who are we

Proform Kitchens are a proud South Australian, family owned business operating since 1996. We use only the most respected local suppliers and materials in the manufacturing process, wherever possible, to support growth and employment for our local economy. Our range of products are custom built by qualified cabinet makers right here in Adelaide using state of the art CNC machinery and professionally installed by our own team of licensed fitters and trades people.

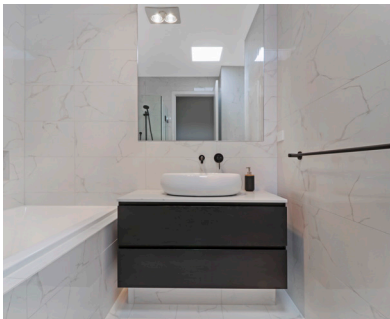

Kitchens

All Proform Kitchens are custom designed and locally manufactured in our factory situated at Holden Hill. We create custom kitchens for every style and budget while offering a service and quality that is second to none. We offer a free measure and quote service by a trained designer that will provide a fixed price contract. We can coordinate all necessary trades and services to ensure the renovation process runs as smoothly as possible.

Laundries

Laundries were once considered a dysfunctional room that you would generally close the door on, to hide the disorganised mess. Nowadays, people have realised the potential for additional storage and functionality of what today's 'Smart' laundry can offer. Custom designed cabinetry to make the best use of space, downsizing appliances and the inclusion of clever cabinet accessories all contribute to creating the perfect laundry.

Vanities

Custom designed vanity cabinets can considerably increase bathroom storage by maximising cabinet sizes and design in the limited space generally available in most bathrooms. This is also very useful when renovating existing dwellings when odd spaces generally prove to be a problem when trying to accommodate standard size prefabricated cabinetry to fit. Being a custom manufacturer means we can create the perfect colour scheme providing that personal touch that might not have been available with the limited standard vanity ranges generally available.

Cabinetry

Proform Kitchens provide cabinetry for all areas of your home. Please do not hesitate to contact us to discuss any of the following storage requirements:

- Wardrobes
- Walk-in wardrobe fit-outs
- Study fit-outs
- Linen cupboards
- Garage storage
- Outdoor kitchens
- Entertainment units
- General storage cupboards
